Major updates from the site are detailed out and report will be send to the client on weekly basis.

Strategic Planning

We have kept on strategies to complete project safely, functionally and economically.

Quality Assurance

We use high quality raw materials throughout our projects as maintaining quality is our priority.

**We go above
and beyond
on every job.**

COMMERCIAL PROJECTS.

Quality Assurance

From high-end retail construction to office spaces, we have the experienced construction team and techniques to help you meet your goals. Very familiar with the challenges of constructing high quality and strong buildings, we aim to serve with best value for money and high return on project.

Designed by : Spaceart

CALICUT GATE.

ON GOING PROJECT

Calicut gate, located at Ramanattukara is one of our **challenging projects** being constructed using piling method. **27metre long piles** have been inserted to strengthen the foundation. It is a combination of effective planning, efficient design, high quality construction and the team. The result is one of our prestigious project under construction.

Thamarassery

COMMERCIAL COMPLEX.

ON GOING PROJECT

Commercial complex located at Thamarassery is one of our **prestigious projects** being constructed . The complex consists of bank, modern coffee shops, restaurants, branded shops with a mini market place in the basement which is accessible through the secondary road.

The exquisite entertainment park at Manimala, Calicut, is the finest example of the construction expertise of Green Earth constructions that explore the different fields where construction can make a change.

The contoured site becomes the play ground of children to make them understand the world around them and to master life skills. It challenges and promotes children's growth by providing opportunities for children to engage in multiple different types of play such as Active play, Sensory play, Creative play, Imaginative Play, Social play and reflective play.

The main aim of the design was to have a space that "flows" well which involves having all the components of the playground well-connected. Considering the natural terrain, we have tried our best to work with the ground, not against it. Existing slopes, banks and flat spaces enhance the native feel of the park.

RESIDENTIAL PROJECTS.

We, at Green Earth Builders and Architects, strive hard to deliver visually appealing, flexible, comfortable, secure and efficient homes which is a perfect balance of comfort and luxury.

RESIDENCE & APARTMENTS

On going

RESIDENCE AT ATHOLI

This residence was designed with the privacy of the interior spaces in mind. The plan has been suitably designed to ensure this. The dining space has been accentuated with an alluring courtyard which opens out into a skylight on top. This maintains the aesthetic appeal of the interior as well as adds a flexible space that can have multiple utilities.

**RESIDENCE &
APARTMENTS**
